OBJECTIVE

Motivated B. Tech Computer Science and Engineering student with a strong academic background and hands-on experience in Python, SQL, Data Analysis, Artificial Intelligence, and Machine Learning. Seeking internship and entry-level opportunities to apply technical, analytical, and problem-solving skills in a professional environment while contributing to organizational goals and continuously expanding my knowledge of emerging technologies.

PROJECTS

- Developed an AI-powered object detection system using Python, YOLOv8, OpenCV, and Ultralytics to accurately detect and label objects in images.
- Built an AI-based music generation model using Python, TensorFlow, Keras, and Music21, capable of learning patterns from MIDI datasets and generating original melodies.
- Designed and implemented an AI-powered FAQ chatbot using Python, Tkinter, and NLTK to provide automated responses through an interactive GUI.
- Created a rule-based chatbot in Python for handling basic automated user interactions.
- Developed an AI-driven Tic-Tac-Toe game implementing decision-making logic and optimal move strategies.
- Planned and maintained responsive web pages using HTML, CSS, and WordPress.
- Completed multiple guided technical projects to strengthen core concepts in computer science and software development.
- Built an AI-driven consumer retention mapping system as part of the Infosys Springboard Internship to analyze customer behavior and generate insights for improving retention strategies.

EDUCATION

B. TECH (CSE) , Amity University Score: 7.9	2027
Class XII (Senior Secondary) , Guru Gobind Singh Public School Score: 84%	2021
Class X (Secondary) , Guru Gobind Singh Public School Score: 80%	2019

SKILLS

Programming Languages

Python, Basic DSA, Basic Java, HTML, CSS, JavaScript

Database

SQL, MySQL, DBMS

AI & Data

AI, ML, Data Analysis, Statistics & Probability

Software

MATLAB, MS Excel, MS Word, MS PowerPoint, VS Code, Git/GitHub

Technical Skills

Project Management, Algorithmic Thinking, Problem Solving, Cyber Security

Soft Skills

Communication, Leadership, Time Management, Adaptability, Responsibility, Teamwork, Discipline

LANGUAGES

English
Professional

Hindi
Native

French
Intermediate

CERTIFICATIONS

- Participant – Smart India Hackathon (SIH)
- 3rd Position – Poster Presentation, Institution's Innovation Council, Amity University
- Introduction to Cybersecurity – Cisco Networking Academy
- Introduction to Cybersecurity Awareness – HP
- Participant – Code for Equity Website Development Competition
- 3rd Position – Impromptu Speaking Competition, National Energy Conservation Day, Amity University
- Microsoft Word 2016 – Infosys Springboard
- Microsoft PowerPoint 2016 – Infosys Springboard
- Microsoft Excel – Infosys Springboard
- Secured Highest Marks in English – Class X, IX, and VII

PROJECTS

Consumer Attention Mapping System (Infosys Springboard Internship)

Developed an AI-based Consumer Attention Mapping System using Python, FastAPI, OpenCV, and YOLO8 to analyze shopper behavior through real-time tracking, attention analysis, heatmap generation, product attractiveness scoring, and retail recommendation analytics.

AI-Based Object Detection System

Built an object detection model using YOLOv8, OpenCV, and Ultralytics to identify and label objects in images

AI-Powered FAQ Chatbot

Enhanced a chatbot using Python, Tkinter, NLTK, and machine learning techniques to answer user queries via a GUI

Smart India Hackathon (SIH), Team Project

Real-Time Face Detection and Emotion Recognition

Built a system to detect faces and classify emotions from live video input

AI-Based Music Generator

Expanded a deep learning model using TensorFlow, Keras, and music21 to generate melodies from MIDI data

Image Captioning System

improved a model that generates captions for uploaded images

Responsive Internship Listing Website

Built a responsive job listing platform using HTML and CSS

Personal Diary Web Application

Created a diary-style web app using HTML, CSS, and JavaScript with save/view functionality and dark mode

Personal Portfolio Website

Created and developed a responsive portfolio website

WordPress Website Development

Built a personal website using WordPress with custom pages and plugins
